About US

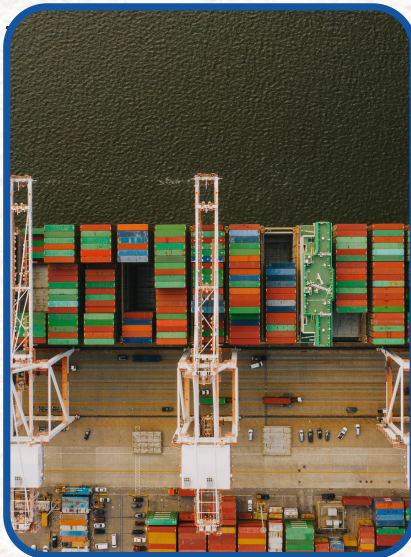

ALBAWARAJ Chemical Trading Co. L.L.C is a leading company with international experience, specializing in the supply of industrial materials and complete logistics solutions. The company provides high-quality services to oil & gas drilling companies, refineries, and water treatment projects across Iraq. With extensive expertise in handling chemicals and industrial products, ALBAWARAJ ensures safe, compliant, and efficient operations supported by all required government approvals and security permits, in addition to operating government-approved large-capacity warehouses for the safe storage of chemicals and industrial materials.

Vision

To create sustainable value and shared prosperity by connecting industries and economies through excellence in global logistics, chemical supply solutions, and professionally certified storage services.

Mission

The mission of ALBAWARAJ Chemical Trading Co. LLC is to deliver high-value, reliable, and integrated solutions to our customers. We are committed to understanding and meeting the needs of oil & gas drilling companies, refineries, and water treatment projects by providing quality materials, safe chemical storage, and efficient logistics services. Our goal is to exceed customer expectations through cost-effective, timely, and systematic solutions that comply with all safety and regulatory standards.

Our --- Services:

Supply of Materials to Drilling Companies

Providing a wide range of essential drilling materials, chemicals, equipment, and industrial products required for upstream operations

Refinery Materials Supply

Supplying refineries with chemical additives, industrial solutions, and operational materials that support continuous and efficient processing.

Water Treatment Chemicals & Solutions

Delivering high-quality chemicals and materials used in water purification, filtration, and treatment systems for both industrial and municipal projects.

Licensed Storage Facilities

ALBAWARAJ owns and operates large-capacity warehouses fully approved by official government authorities. These facilities are equipped to safely store chemicals, industrial materials, and general cargo, offering clients reliable storage and distribution services.

Drilling Chemicals & Oilfield Materials Supply

ALBAWARAJ Chemical Trading Co. LLC is a trusted supplier of a comprehensive range of oilfield drilling chemicals and additives that support all drilling operations from spudding to completion. The company provides high-performance materials that ensure well stability, efficient drilling performance, and maximum operational safety.

All products are sourced according to international standards and supplied with full documentation, safety data sheets, and regulatory approvals. Our integrated logistics and licensed storage facilities ensure fast, safe, and uninterrupted supply to drilling sites across Iraq.

Refinery Chemicals & Industrial Solutions

ALBAWARAJ provides specialized chemical solutions for oil refineries that enhance production efficiency, protect critical equipment, and ensure continuous, stable operations. Our refinery supply solutions include treatment chemicals, corrosion protection systems, scale control chemicals, process additives, and specialty industrial chemicals tailored to refinery operations.

Through our government-approved warehouses and secure transportation fleet, we ensure continuous supply without interruption, supporting refinery productivity while maintaining the highest safety and compliance standards.

Our drilling product portfolio includes, but is not limited to:

| PRODUCT NAME | DESCRIPTION |
|---------------------------------------|--|
| BARITE 4.2 | Barite BaSO ₄ , meets API specifications 13A section 7 |
| BARITE 4.1 | Barite BaSO ₄ , meets API specifications 13A section 20 |
| BARITE4.0 | Barite BaSO ₄ , SG-4.0 |
| HEMATITE | Hematite, meets API specifications 13A section 8 |
| Calcium Carbonate - CaCo ₃ | Ground marble (calcium carbonate) |
| Calcium Carbonate - CaCo ₃ | Ground Limestone (calcium carbonate) |
| Resinated Lignite | Resin modified Lignite |
| Starch | Preserved modified starch, Pregelatinized Starch |
| HT Starch | Preserved modified starch, Pregelatinized Starch |
| CMS | Modified Natural Polymer, Carboxy methyl starch |
| HT Starch | Non ionic, cross-linked Starch for HTHP applications |
| CMC LV | Sodium Carboxy methyl cellulose Low viscosity |
| CMC HV | Sodium Carboxy methyl cellulose High viscosity |
| PAC LV | Polyanionic cellulose-Low viscosity |
| PAC SLV | Polyanionic cellulose-Super Low viscosity |

| PRODUCT NAME | DESCRIPTION |
|----------------------|---|
| PAC R | Polyanionic cellulose Regular Viscosity grade |
| PAC LV 95% | High-quality, Medium Purity polyanionic cellulose, low viscosity |
| PAC LV SUPREME | High-quality, polyanionic cellulose Low viscosity |
| BENTONITE API | Sodium Bentonite, meets API specifications 13A section 9 |
| OCMA BENTONITE | Filtration-control and suspension agent |
| Gaur Gum | Gaur Gum, Viscosity & Fluid loss control in low solids mud |
| XANTHAN GUM | Primary viscosifying polymer. Xanthan Gum |
| LCM FIBER | Micronized Cellulose fibre |
| MICA | Micronized Cellulose fibre |
| NUT PLUG | Ground nut shells |
| GRAPHITE POWDER | Granular Graphite |
| GRAPHITE POWDER FINE | Granular Graphite/ Coke blend |
| KWICK SEAL | Blend of fibrous, flaky & granular LCM |
| COTTON SEED HULLS | For all type of Lost circulations |
| DIATOMACEOUS EARTH | Diatomaceous earth blend for preparing soft plugs for severe lost circulation |
| Nut Shells | Granular Nut shells |

Our refinery and water treatment chemical product portfolio includes, but is not limited to

| PRODUCT NAME | DESCRIPTION |
|-----------------------|---|
| Methanol | Multi-purpose industrial solvent and fuel. |
| Glycol (TEG/MEG/EGMB) | Moisture removal and heat transfer |
| DIPA | Gas sweetening and acid removal. |
| Sulfolane | Aromatic extraction solvent for refining. |
| MDEA | Gas sweetening and acid gas removal. |
| MEA | Gas treatment and acid removal. |
| DEA | Gas treating amine solvent. |
| Detergent Additive | Engine cleaning and performance enhancer. |
| Xylene | Industrial solvent for chemical processes. |
| Corrosion Inhibitor | Protects metals from chemical corrosion. |
| Scale Inhibitor | Prevents mineral deposits in systems. |
| Demulsifier | Separates oil from water mixtures. |
| Caustic Soda (NaOH) | Strong alkali for chemical processing. |
| Soda Ash | Alkaline chemical for industrial processes. |
| Citric Acid | pH regulator and cleaning agent. |

| PRODUCT NAME | DESCRIPTION |
|--------------------|--|
| Sodium Bicarbonate | Mild alkali for industrial applications. |
| H2S Scavenger | Removes hydrogen sulfide from gases. |
| Biocide | Controls microbial growth in systems. |

Our water treatment and purification chemical product

| PRODUCT NAME | DESCRIPTION |
|----------------------|-------------------------------------|
| Alum | Water coagulation and clarification |
| Ferric Chloride | Removes impurities from water |
| Polyelectrolytes | Flocculation and sludge enhancement |
| Chlorine | Disinfects water and bacteria |
| Sodium Hypochlorite | Water sanitizer and oxidizer |
| Calcium Hypochlorite | Strong water disinfectant chemical |
| Lime | pH adjustment and softening |
| Soda Ash | Alkalinity and pH regulation |
| pH Control Acids | Regulate water acidity levels |
| Anti-scalants | Prevent mineral scaling deposits |
| Activated Carbon | Removes odor and contaminants |
| Ion Exchange Resins | Water softening and purification |

Customs Clearance

ALBAWARAJ is at the heart of shipping, which is why we've developed an efficient strategy to ensure your cargo is delivered on time, every time.

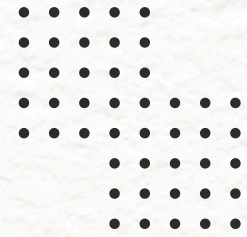

ALBAWARAJ, we combine advanced technology, streamlined processes, and an experienced team to provide fast and reliable customs clearance. We operate at key gateways across Iraq – including Basra ports (Umm Qasr, Abu Flous, Khor Al-Zubair), free zones, Baghdad and Erbil airports, and major land border crossings. Our services also extend to UAE ports and other GCC entry points, offering seamless regional coverage.

Our experts ensure full compliance with regulations while accelerating the clearance of all types of cargo, from in-transit and duty-exempt goods to re-exports and specialized shipments. We provide the guidance and support you need for a smooth and hassle-free clearance process.

Our Key Services

- ✓ Air & Sea Customs Clearance (Import & Export).
- ✓ Duty-Exempt Shipments Clearance.
- ✓ Transit (In/Out) Shipment Clearance.
- ✓ Free Zone Customs Clearance.
- ✓ Temporary Import Clearance.
- ✓ Import for Re-export Clearance.
- ✓ Vehicle Import/Export Clearance and Customs Inspection.
- ✓ Cross-Border Road Transport Customs Clearance.

Storage and Warehousing

ALBAWARAJ provides temporary and long-term storage services for companies and individuals in an effective and competitive manner through spaces allocated to each client according to their needs.

ALBAWARAJ Co.

We also ensure the protection and safety of your property by storing it in safe and guarded warehouses that contain many storage methods to suit your requests and budgets.
